

Fall 2022 - CS 203 Object Oriented Design

Lab 05

Objectives:

- Learn how to write Java graphical applications using Java Swing
- Have fun!

Basic Assignment:

We will be drawing a simple house and garden using Java graphics class. Feel free to use your imagination to expand the project. Here are the basic requirements;

- 1) House that includes (a) windows, (b) at least one door, and (c) a roof
- 2) A garden that includes (a) some grass and (b) at least one tree
- 3) Write your name on the right-bottom corner

Stretch Assignment:

If you finish the assignment above, try to think how you can move the graph easily as a whole.

Good Luck ☺
